

Recruitment of Global Young Talents 2018 School of Education, Central China Normal University

School of Education

School of Education at CCNU was established in 1924. The master's program at our school started from 1978, and it was one of the first programs accredited by Ministry of Education in 1981 to be eligible for conferring master's degree. The program in Principles of Education gains the eligibility for conferring doctoral degree since 1996, and History of Education since 2000. Both of them are among the first ones gaining the eligibility in the respective subject area. And in 2003 the School acquired the eligibility to confer doctoral degree in 211 the subject areas within education. Principles of Education at our school got admitted to national key disciplines in 2007. Education Science got admitted to provincial key disciplines in 2008. And since 2012 our school got admitted as one of the first national 985 Innovation Platforms for Superior Subject Area in teacher education.

Currently our school offers 8 doctoral programs (in foundation of education, curriculum and teaching, economics of education, history of education, comparative education, early childhood education, higher education, and special education), and 12 master programs (in principles of education, curriculum and teaching, economics of education, history of education, comparative education, early childhood education (academic degree), early childhood education (professional degree), higher education, special education, youth organization and thoughts, primary education, and educational administration). In the long history of development, our school has developed strong traditions in educational research, especially in the area of basic theories in education, history of educational activities, history of overseas educational exchange, educational policy, deep teaching, moral education, rural educational, education development in the information age. etc. which are well-known in China.
